Personal Protective Equipment

Personal Protective Equipment

Head Protection

Charger Safety Cap

- Meets ANSI Z89.1+ /impact protection.
- Contoured dome for sleek, trim profile.
- Short cap bill for greater upward vision.
- Antiglare Griptech™ bill limits glare and improves bill grip.
- Constructed for the addition of a 4 point chin-strap.
- Lightweight design.

ASC Cap

- Slotted cap constructed of dielectric materials.
- Excellent for general overhead protection .
- Suspension adjusts to seven head sizes, and cap is molded to contour the head and nape.
- 4 point nylon ratchet suspension.
- ANSI Z89.1+

Blockhead Hat

- Meets ANSI Z89.1+ 2003 standards.
- Coolmax terrycloth sweatband for comfort and easy cleaning.
- 4 pt Chinstrap available.
- Standard pack 10.
- Increased thickness on the front and back brim.

Eye and Face Protection

Nemesis™

Base Curve 8

- Sleek, sporty style
- Soft touch temples
- Lightweight construction
- Single lens wrap-around protection
- Standard package 12

38 Special™

Base Curve 8

- Quality frame and stylish ergonomically contoured temples.
- Sure-grip rubber temple inserts provide a sure fit and make a bold fashionable look.
- Standard pack of 12.

Hellraiser™

Base Curve 8

- Extreme Lightweight design.
- High performance polycarbonate lens.
- Flex point temples for comfort and stability.
- Standard package 12.

30-06™

Base Curve 7

- Stylish ergonomic GS7 nylon frame combine with polycarbonate lens for the ultimate in protection.
- Soft rubber nose pad with self adjusting fingers for all day comfort.
- Standard package 12.

Eye and Face Protection

Nemesis RX

- Available in +1.0 to 3.0 diopters
- Larger lens for more complete wrap around protection.
- Distortion free forward vision.

Dual Segment RX

- Ideal for those who work above their heads or upside down and need to look up for near vision as well as down.
- Prevents neck and eye strain.

Hearing Protection

Jackson Safety offers hearing protection that is both comfortable and stylish. Earmuffs are designed in styles that can dampen both intermittent or constant high-frequency noise. Also offered are reusable and disposable ear plugs, and hearing bands designed for easy usage with safety glasses, helmets or other headgear.

Soft Foam Ear Plugs

- NRR 32.
- 200 pr per dispenser—individually bagged.
- Tapered shape for easy insertion.
- Disposable.
- Fits almost any ear canal.

Part #3013911

ONYX Earmuffs– 23 & 26 NRR

- Lightweight, durable and economical.
- Ultra-soft ear cushions for comfort and extended wear.
- Ball & Socket pivoting cup attachment providing optimum pressure distribution for maximum noise reduction.

Part #3015085 Onyx-23 Headband Earmuff
Part #3015086 Onyx-26 Headband Earmuff

Respiratory Protection

Product Line consists of Disposable and Half-Mask Respirators, Replacement Cartridges and Filters.

2747 N95 Particulate with Valve and Nose Cushion

Part #3010952

- Low profile design and surefit triangular nose cushion of soft, closed cell foam provides exceptional worker comfort.
- Strong, stapled head-straps for long life and comfort.
- Low pressure drop exhalation valve for easy breathing and increased worker comfort.

Personal Protective Equipment

Protective Clothing

Protective Clothing (continued)

All Weather Class 3 Apparel

Available in Hi Vis Lime & Orange

Part # as shown
3009712

Jacket

Meets ANSI Class 3 standards.
Class 3 Convertible Parka may be zipped inside the All Weather system for Additional warmth.
Insulated patch pockets with flaps.
Elastic cuffs with adjustable closure.
Convenient snap-on hood.
Zipper travels thru extended collar for full insulation.

Part # as shown
3009734

Pants

Meets ANSI/ISEA 107 Class E standards when worn with Class 2 or Class 3 top.
Fleece inner lining
Lower side zipper for coverage over boots.
Belted waist and zipper fly.
Side slit pockets, single rear pocket with flap and zipper.

**Rugged Workwear
Insulated and Flame Resistant**

TOOLS YOU WEAR!

- DuPont Advanced Teflon repels wind, rain & stains.
- Super Soft '12 Iron Plus outershell.
- **Harness slot in back for fall protection.**
- Comfortable, ergonomic fit for less fatigue & greater safety.
- 3M Thinsulate for extreme cold quilted to warm brushed nylon flannel lining.
- Cordura reinforced cuffs.
- Hidden knit storm cuffs with adjustable snaps.
- 3 season temperature comfort range.

Shown: 3 Season Contractor Insulated Hooded Jacket (JX8050)
List: \$112 for sizes XS-2XL. (Sizes available to 4XL)

Breathable Fabric— SafeGard® SMS

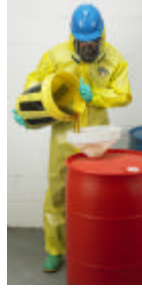

Breathability is the bonus; air and water vapor pass through for superior wearer comfort. Keeps wearer safe from numerous toxic particles and water-based liquids. Fabric consists of three layers of pliable, comfortable polypropylene. The two outer layers are made with, spunbonded filaments that stand up to tearing and abrasion; the inner layer is of melt-blown polypropylene microfibers that filter out potentially harmful particulate matter and liquids.

Coverall Style 8428. List: \$4.01 each

ChemMax 1—Entry Level Chemical Protection at an Economical Price

Ideal for manufacturing, environmental clean up or chemical handling.

Constructed with a unique polyethylene barrier film and a continuous filament polypropylene nonwoven. These garments bar many harmful contaminants from penetrating to inner clothing. Available with serged, bound and sealed seams for scal-

Style C1S428-Y: List: \$7.00 each

MicroMax NS— Economical Microporous Protection from Dirt, Grease, Grime and Light Chemical Splash!

This line of general purpose protective clothing can be used in any non-hazardous environment where dirt, grime, splashes and spills are present. Very economical and lightweight, MicroMAX® NS is breathable for worker comfort, and is strong, wet or dry.

Coverall Style CTL412. List: \$4.05 each

Also Available

**MicroMax NS Cool Suit!
Increased Breathability Coverall**

Features increased breathability with an added spunbond polypropylene back panel. A superb pattern design and elastic back waist offer improved comfort and fit. Front & Sides made of microporous film on polypropylene substrate provide barrier protection, the breathable back panel offers a light particulate barrier.

Part #COL412

Hand Protection

Glove Liner

Impact protection when worn inside an existing work glove

Fingerless four-way stretch poly-cotton lycra glove liner with full palm VEP padding.

Style #501-00. List Price: \$6.90 each, \$12.30 pr.

Anti-Vibration Air Glove™

Impacto full finger all leather glove. Driver style elasticized cuff for comfort. Features individual air chambers Bubble Bladder in palm, fingers and thumb.

- Provides the best vibration protection in the market.
- Impact protection .
- Lightweight design for comfort.
- Thin tactile surface minimizes grip stress.
- Also available with knit cuff (Style BG651).

Style #BG650. List Price: \$30.55 each, \$55.45 pr.

Personal Protective Equipment

Personal Protective Equipment

Hand Protection

Ultrane Coated Glove Line

Made from Seamless Knitted Fabric with a Polyurethane, Nitrile or Foam Nitrile coating on palms and fingers.

Ultrane™/557
List Price: \$12.30 pr.

- Ultrane Classic-optimum dexterity and various coatings suited to individual working environment.
- Ultrane Grip: features and expanded contact area for exceptional abrasion resistance and improved grip, particularly in wet environments.
- Ultrane Plus: Features a cut resistant liner which combines dexterity and protection against mechanical hazards. Sizes available: 6-10

11" PVC Heavy Duty Gloves

- Made with several thin layers of different liner material providing maximum insulation in cold environments.
- Special PVC formula on the outer coating retains flexibility in cold and wet applications, plus provides excellent protection against oil and hydrocarbons.
- Available in several styles knit wrist, safety cuff, smooth or rough grip. Sizes Available: 10, 11

Ugoria™/750
List Price: \$8.33 pr.

Medium Duty General Purpose Glove

Titanlite

Style #GPA-397

- Features a comfortable interlock cotton knit liner, a gold colored nitrile palm coating. Curved fingers and contoured palm balance flexibility, sensitivity, and comfort for light to medium duty applications.
- Exclusive nitrile formulation provides a higher resistance to cuts, punctures and abrasion when compared to other "light" gloves.
- Available in knitwrist or safety cuff styles.
- Launderable. Sizes available: 6-10

Natural Rubber Glove Coated Gloves with Etched Grip

Enduro 328- Medium Duty

SEAMLESS yellow cotton jersey liner provides unsurpassed comfort, with no seams in the hand area, along with good thermal protection. The orange palm-coating provides cool comfort, and superior protection, with knitwrist for secure fit. Available in Sizes 7-10

Enduro 330- Medium-Heavy Duty

Cotton jersey liner provides two-piece construction, which removes the seams from the working surface to prevent irritation. Liner provides good thermal protection. The green palm-coating provides cool comfort, and superior protection, with knit wrist for secure fit. Available in sizes 6-9

Both have Curved fingers, contoured palm balance flexibility, sensitivity and comfort. Unique etched finish provides enhanced grip in dry and/or wet applications. Large selection of sizes insures correct fit for your entire work force. Launderable with color coded stitching at bottom of knitwrist for easy sorting.

Hand Protection

MechPro Grip Leather Mechanics Gloves

Pigskin premium grain leather. Reinforced padded palm patch for grip and extra wear. Reinforced leather thumb, fingertips and knuckle strap. Hook and look closure. Sizes M, L, XL.

Part #7790

HiVis MechPro

- Machine washable synthetic suede palm.
- Airdex™ breathable stretch spandex back in safety lime green.
- "Second skin" stretch fit and feel for superior dexterity and flexibility.
- Double-stitched in fingertips, index finger & thumb for extended wear.
- "Feeltite" adjustable wrist closure.

Part #7703

Leather Double Palm

Standard split leather double palm. Wing thumb, safety cuff, Full feature. Double palm color may vary. Sizes Available: S, M, L, XL

Style #Y3206

Economy Cowhide Gloves

Grain Cowhide. Economy choice, offers the best possible value that delivers quality and consistency. Gunn cut, straight thumb. Bound

Part #Y0133

Economy Leather Driver

Grain Leather Palm, split leather back, Keystone Thumb. Available in S, M, L, and XL. Color is Palomino.

Part #Y0143

Personal Protective Equipment

Personal Protective Equipment

Foot Protection

Puncture Resistant Insoles

Contoured molded Orthotic Support System with heel and arch support. Stainless steel plate provides protection against puncture wounds to the feet caused by sharp objects such as nails, scrap metal, iron shards and rocks.

Model: Rhinotuff. List Price. \$19.95

Metatarsal Protection

A safety footwear attachment which protects the metatarsal area of the foot. Sits on top of the steel cap at load point of the safety shoe, and is secured with existing laces or straps. Helps to protect the workers' upper foot by deflecting and dispersing the impact of falling loads.

Model: Metguard. List Price: \$29.95

The IMPACTOE™ Safety Toe!

Designed to fit tightly over existing shoes, providing a solid steep cap to protect the toes against accidental crushing or stubbing. Ideal for visitors, temporary workers, management, salespeople. Impactoe is transferable from person to person without concern for hygiene or size restraints.

Sizes: XS—2XL

Model #Impactoe

MRSP: \$26.95 pr.

Caustic and Water Resistant Leather Boot

Protect your feet in rough terrain while keeping them dry and comfortable all day long.

- Chemical and Water Resistant leather is caustic soda and chemical resistant which is tested to industry standards. Leather is water resistant.
- Chemical resistant thread resists heat, chemicals and welding sparks better than standard footwear thread.

- Heat Resistant Sole to temperatures of 572 f.
- Chemical Resistant Sole. Tested against caustic soda, most acids, mineral oils, alkalis.
- Superior resistance to cutting and abrasion for the harest working conditions, but also light and flexible to provide exceptional wear comfort.
- High impact alloy toe cap is more than 40% lighter than traditional steel toe caps.
- NATUREform toecap is shaped to suit your foot and is padded with a latex cushion liner to ensure toes are comfortable and not in contact with the toe cap.
- Comfort Cushion protects the heel and ball of the foot by providing superior cushioning and shock absorption, reducing foot, leg and lower back fatigue.

Knee Protection

All-Terrain Gel Kneepads

Helps Prevent Knee and Hip Joint Stress

Textured co-polymer cover sewn to padding with extended feet and heel to keep debris out. Superior blend of infused Gel Foam Polymer padding helps disperse pressure away from the patella bone. Mesh lower strap and upper elastic strap gives added stability.

Style #878-00 List: \$56.95

Knee Saver™

Provides strain protection while kneeling or crouching. Relieves stress on joints, tendons & cartilage. Uniquely notched back prevents slipping. Durable, easy to clean surface.

Style #890-00. List Price: \$29.95

Personal Protective Equipment

Personal Protective Equipment

Fall Protection

Fall Protection

Home of the DBI-SALA and Protecta Brands of Fall Protection Equipment.

First™ 5-Point Full Body Harness

The FIRST line from Protecta serves as an excellent choice for turnarounds, scaffold, erection, facility maintenance.

- Vest style with back and side D-rings
- Tongue buckle leg straps for quick adjustment
- 5 point adjustment
- Size Universal

Part #AB17530. List Price: \$53.50

Protecta® PRO Construction Harness

Workhorse Harness with Side D-Rings

Globally compliant, the Protecta PRO has a design with an improved fit, updated colors, and lightweight hardware and padding. The Built-in Impact indicator allows for easy inspection and added safety.

- Back and Side D-ring
- Hip pad and belt
- Tongue buckle legs

Part #AB140131. List Price: \$106.50

DBI-Sala Delta™ II Construction Harness

Workhorse Harness with Stand-up Back D-Ring

Comes standard with a spring-loaded “stand-up back D-ring that ensures quick and easy connection to your fall arrest device. This harness is ideal for general construction applications where fall protection and positioning is needed.

- Vest Style.
- Built-in belt loops to support a tool or support belt.
- Side positioning D-rings.
- Pass-thru buckle leg straps.
- Size Universal (additional sizes available).

Part #1101655:
List Price: \$157.50

ExoFit XP Construction Harness

Premium Comfort Harness!

ExoFit harnesses feature a wrap around, no-tangle design that slips on like a vest, making it quicker and easier to put on while providing ventilation, comfort, padding and security.

- Stand up back D-ring with Impact indicator.
- Tongue buckle body belt with back pad and side D-rings.
- Removable shoulder, back and leg padding.
- 3-D mesh lining with soft edging for comfort.
- Quick connect buckles.
- Loops for body belt.

Part #1110152: List Price: \$270.00

FIRST™ 6' Single Leg Shock Absorbing Lanyard

Standard Value SA Lanyard

- 1 3/4” Polyester Web
- 2 standard FIRST hooks

Part #AE57610. List Price: \$54.00

PRO Shock Absorbing Lanyard

100% Tie-Off in Tie-Back Design

- 1 3/4” Polyester Web, Double leg ,tie-back D Ring
- 3 standard connectors

Part #AE550AW2T. List Price: \$86.50

DBI-Sala Shockwave™ 2 Shock Absorbing Lanyard

Expanding 100% Tie Off Lanyard

- Expands to 6’ and contracts to 4 1/2 ft.
- Reduces dragging and snagging for more freedom of movement.
- Twin-leg 100% Tie off with Flat Steel Hook Ends.

Part #1244412: List Price: \$161.50

Vertical Net Debris Containment System

A Must for Debris Containment—Protects from Falling Debris and Workers Near Building Edges.

The most complete and cost-effective debris containment and guardrail system on the market. Highly visible bright orange polyethylene mesh protects workers near building edges and increases public safety by preventing falling debris. Cheaper and easier to install than a guardrail. When installed properly, it eliminates the need for mid-rail and toe boards. Designed for use with traditional cable set-ups, the nets are easy to remove, relocate, handle and store.

Part No. 4100300: 48" high x 100 ft. long with 55 EZ clips and 22 tie-down plates (other sizes available). List Price: \$89.50

Personal Protective Equipment

Fall Protection

Talon 100% Tie-Off SRL

The Ultimate in 100% Tie Off Compliance

The industry's first twin-leg SRL incorporates two separate 6 ft lifelines that extend and retract as the worker moves, providing continuous fall protection and added mobility. Talon's automatic, inertia activated brake will stop a fallen worker within inches, limiting forces to 900 lbs or less for added safety.

Part #3102000 Shown. List Price: \$350.00

Rebel - The Industry's Lightest and Most Compact 11' SRL!

Standard Value Web Retractable Lifeline

- Lightweight and compact aluminum housing construction weighing only 2.8 lbs.
- Best lifeline length-to-weight ratio in the industry
- Unique super strength thin webbing for total security and added length in a compact SRL Unique speed sensing brake reduces clearance requirements and limits fall arrest forces to 900 lbs. or less
- Two year warranty, no re-certification necessary.
- Meets or exceeds all applicable industry standards.

Part #AD111A.
List Price: \$128.00

Protecta® SRL 30' Steel Cable

Durable—But—Light

- 30' working length.
- Lightweight device - just under 10 lbs.
- 3/16" galvanized cable Zinc coated internal components.
- Shock-Resistant thermoplastic casing.
- Begins fall arrest within 2'
- Red end-of-travel indicator
- AJ565A double locking swiveling snaphook on end
- Works horizontally or vertically
- Two year warranty, no re-certification necessary

Part#AD212AG.
List: \$360.50

DBI Sala Ultra-Lock® SRL

Anti-Ratchet Design Necessary for Use with Horizontal Lifeline!

- Stainless steel working components for corrosion resistance.
- 20 ft. one-inch nylon web lifeline for reduced weight.
- Reserve lifeline retention system for added safety.
- Self-locking swivel snap hook with impact indicator.
- Swiveling anchorage loop to prevent twisting of lifeline.
- Meets or exceeds all applicable industry standards.

Part #3103208: List Price: \$560.00

FIRST™ Compliance in a Can

All You need Complete Fall Protection System available in a Convenient Container

Includes:

- One 3-point full body harness.
- One combination rope grab and shock absorber.
- One 50' rope lifeline with attached double locking snaphook.
- One single use galvanized roof anchor bracket*.

*Available in four different configurations to fit your particular job. Instead of the Roof Anchor Bracket, choose a Concrete Anchor and Bolts (AA7052A), Wire Rope Sling (AA7054A), or Webstrap Anchor Sling (AA7056A), or other Roof Anchor Brackets.

Part No. AA7050A*. List Price: \$197.00

Personal Protective Equipment

Fall Protection

DBI-Sala Concrete D-Ring Anchors

Allows You to Put an Anchor in Concrete when one Doesn't Exist

- A simple, versatile and safe concrete anchor solution – for use in temporary or even permanent applications.
- Re-usable D-ring assembly, just install a new bolt and it's ready for use again. Rugged design for harsh environments with no moving or fragile parts to foul-up Safe "hook-up" indicator notifies the user the anchor has been installed properly.
- 5,000 lb. rated, OSHA compatible connection point swivels 360 degrees for safety and usability.
- Meets or exceeds all applicable industry standards .

*Part #2104560

List Price:
\$72.00

Also Available: Part #2104561 (5 add'l bolts) List Price: \$180.50;
Part #2104562 (11 add'l bolts). List Price: \$342.00

DBI-Sala Glyder™ Beam Anchor

When Mobile Anchor is Needed on an I-Beam!

- Provides complete horizontal mobility, tie-off overhead or at your feet (use with Force2™ lanyard when anchored on walking surface).
- Anchor effortlessly slides across the beam on its wear pads, eliminating metal-to-metal contact.
- Stainless steel construction for corrosion resistance and strength.
- Channel lock prevents beam grip ends from rotating for hassle-free connection.
- Positive spring-loaded engagement provides precision adjustment.

- Dual beam grip adjustment prevents twisting and turning as it moves along the beam.
- Pins install from top for easier installation.
- Pin retention system prevents loss or damage to locking pins.
- Meets or exceeds all applicable industry standards including OSHA, ANSI and the stringent ANSI Z359.

Part #2108406. List Price: \$297.00

EZ Line Retractable Horizontal Lifeline

A Self-Contained & Variable length Horizontal Lifeline

This unique and first of its kind system eases the stress of installing, recoiling and removing horizontal lifeline systems by incorporating a built-in retractor device. The entire 60' system is easily deployed and retracted from its compact hand-held housing. It is 33% lighter than most horizontal lifeline systems.

Part #7605060. List price: \$999.50

Hydration System for Full Body Harness

Provides Mobile Personal Hydration

This Compact Hydration System connects to any DBI-Sala harness. It holds 50 oz. of liquid for added worker safety and productivity. It effortlessly and safely clips on directly to harness.

Part #1150174: Hydration System includes nylon carrier, insulated drink tube and clip, bit valve and reservoir
List Price: \$64.50

W Series Recessed Cones

- Meets MUTCD Standards.
- One piece wide body design and construction.
- Easier stacking, no pinch points with collars.
- Increased durability for reflective sheeting; recessed collars resist direct wear.
- Protected reflective translates into longer service life lowering overall usage costs.
- Available in 28" and 36" Styles.

Grip and Go Channelizer Cone

- Stackable for confined storage.
- Channelizer cone uses less space than barrels or drums.
- 42" Tiered cone design with the easy Grip and Go handle; 47" to the handle top.
- Available in various reflective sheeting with recessed areas of protection when stacking.
- Handle accommodates all Allsafe-SMC barricade lights and barrier tape products.
- 100% recycled rubber bases available in 2 shapes.
- Meets MUTCD standards for nighttime use.
- Conforms to NCHRP 350 standards.

TrailBoss Channelizer Drum

- Meets NCHRP-350 requirements with or without barricade lights.
- Five panels available for sheeting.
- Accommodates Allsafe-SMC barricade lights.
- Patented handle design allows for easy pickup even with barricade light attached.
- Three bases available, 25 lb., 35 lb recycled rubber, or plastic snap on for use with sandbag.
- Bases incorporate a waffle pattern on bottom to eliminate walking or creeping. Anti-Roll foot design.
- Accommodates tire ring base.

Barricades

Type I and II Barricades

O-Frame Barricades—Flexibility to meet any Installation Challenge

Instantly create a MUTCD Type I or II barricade OR an ADA-compliant type 1 or II Barricade.
Accommodates 1” or 2” plastic or wood panels
Highly visible at night.
Durable and remain visible throughout their life cycle, providing an extra safety factor for drivers who depend on them for guidance.

Our T3B Type III Plastic Barricade system is NCHRP 350 Approved as a Category 2 Type III Barricade.

- T3Bs readily yield when struck by a vehicle allowing vehicles to pass over T3B without causing damage to the passenger compartment. Lightweight parts don't bounce into traffic or the construction work zone.
- Fast set up reduces worker exposure to road hazards.
- Lighter weight reduces the danger of workman's compensation claims.
- Durable high density polyethylene plastic and a component design allows the T3B system to take multiple hits with minimal damage.

Sundowner ® Barricade Light

- Made in the USA!
- Meets MUTCD requirements
- ITE certified
- Ambient photocell with a timed delay that reacts to light in the environment
- Operates on 4 easy to install D-cell batteries
- Compact base with battery contacts that work with gravity for greater conductivity
- L.E.D. encased in high impact plastic 90 degree angle lens offers increased visibility
- 3 Way switching options: Steady Burn, Flashing, and Off

Flexi-Guide FG 300 Posts

FG 300 Posts come in three different grades for different applications. All posts meet or exceed state specifications for surface mounted delineator posts and are NCHRP 350 compliant.

FG 300 UR—The Industry Workhorse.
Solid performer, proven itself in many applications and remains sturdy after continual impacts. Post of choice for 2-way 2 lane work zone applications.

FG 300 PE—The Multipurpose Post. Cost effective solution with a multitude of uses. A good choice for general application where the rates of impact are modest.

FG 300 EFT—The Post for Can't Fail Applications. This post is so tough it is the first and only post to offer a 1 year limited warranty.

Workzone Pavement Markers

Temporary Overlay Markers (TOM'S)

TOMs are the most effective and convenient product on the market that provide short-term temporary pavement

markings day and night, are simple to place and easy to remove. TOMs are durable enough for use on any road, from low volume to interstate highways.

Workzone Pavement Markers

RPMs & Halftracks are the most effective and convenient products on the market that provide long-term temporary road markings both day and night. They are simple to place and easy to remove. They are manufactured and stocked in two standard colors – white and yellow – and can be made reflective on one or both sides. All RPMs & Halftracks offer an optional factory-applied high tack butyl adhesive pad, that provides for "peel-and-stick" quick installation to the roadway.

Signs and Sign Stands

Reflective Roll-Up Signs -36" & 48"

Marathon Fluorescent

- Meets NCHRP 350 & MUTCD standards
- Lightweight Design, easy to transport—only 8 lbs!
- Long lasting fluorescent color allows signs to be used longer.
- Photometric performance material provides superior nighttime guidance.
- Will not wrinkle or crinkle-keeps legibility even after multiple uses!
- Three year limited warranty!

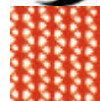

Fluorescent Orange Super Bright

- Fluorescent orange color provides maximum visibility.
- Fluorescent orange microprismatic sheeting increases legibility and provides higher retroreflective performance.
- Features vinyl-coated nylon pocket design. Lexan pockets available upon request at additional cost.

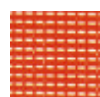

Non-Reflective Roll-Up Signs -36" & 48"

KS Single Ply—Fabricated from single ply, vinyl-coated nylon mesh with vinyl bound edges for durability.

KS Double Ply—Constructed with two layers of heavy duty, double knit, nylon mesh material.

VS Mesh—Manufactured from tightly woven polyester mesh fabric. Specially formulated PVC Foam extruded over polyester yarn for a roll-up panel at a very competitive price.

Standard Legends and Custom Legends available.

Signs and Sign Stands

Stop and Slow Paddles

ABS Paddles (Plastic)

- Meets MUTCD requirements.
- Octagon Shape.
- Engineer Grade, Hi-Intensity or Diamond Grade Sheeting.
- Sizes available: 18 & 24".
- Staff and couplings sold separately.

Roll-Up/Rigid Tripod Sign Stand

- Meets NCHRP-350 requirements with roll-up sign.
- Displays 36" and 48" roll-up or rigid panels without special adaptors.
- Fabricated from durable, galvanized mechanical tubing.
- Strong, lightweight design allows for easy set-up and take-down.

Part #3007719 Tri-Pod Stand for Roll Up and Rigid

Jackson Safety has a wide variety of sign stands and sign stand kits

Bargard ReBar Protector Caps

Disc-10

- Fits rebar #3-7, 3/8" to 7/8" diameter.
- Lightweight and chemical resistant.
- Stands up to weather and temperature conditions.
- Bright orange for visibility.
- Standard Pack of 100.
- Meets CAL OSHA construction Safety Orders Section 1712 on impalement protection from concrete reinforcing bars.

Part #3011839

Safety Storage and Spill Containment

JUSTRITE

Safety Cans

Type I Steel Safety Cans

Compliant Type I safety cans are designed with a single spout for filling and pouring. The self-closing, leak proof lid provides security from spills and leaks. Cans up to one gallon feature a trigger release handle while larger capacities have a swinging handle to greatly ease carrying heavier loads.

Type II Steel Safety Cans

Compliant Type II steel safety cans offer additional convenience with two openings at the top. One opening is equipped with a flexible metal hose for smooth, accurate pouring into small apertures. The hose also provides a bonding path to a receiving vessel. A second opening, positioned behind the handle, is used for filling.

Both openings are equipped with dual-density flame arresters which reliably dissipate heat to prevent flashback ignition. Both openings self-close to prevent spillage and the rear opening automatically vents.

Cans are equipped with an FM-tested dual-density flame arrester, which reliably dissipates heat to stop flashback ignition.

All cans meet OSHA and NFPA requirements, is certified by FM, UL, ULC, and carry an exclusive Justrite Ten-Year Warranty.

JUSTRITE

Funnel Attachments for Type I Steel Safety Cans

Funnels are an economical way to aid pouring into smaller openings. Made of durable polyethylene, they slip-on quickly and remove as needed.

Model 11202Y: I'm Easy Funnel fits Type I Steel cans, 1 gallon and above. List Price: \$7.14
