

### On-Site Drug Testing Made Easy

**OrAlert SalivaScreen-6 is an On-Site One-Step Saliva Screen for Drugs of Abuse**

- Easy Saliva Drug Testing
- No need for urine collection
- Avoids gender-specific collection issues
- Test for 6 drugs
- Eliminates collection site costs
- Helps eliminate adulteration
- Results in 10 minutes
- Easy to use
- No dropper or collection vials needed

### Split Cup

- Accurate, easy to use, self contained cup format
- Easy to read results in 5 minutes
- Cup includes separate testing area ensuring integrity of sample
- Activate test when convenience by simply pushing a key
- No reagents needed

Available in 5, 10 and 6+3 adulteration screens

### Disposable Backboards

- Fluid Resistant.
- Adult and Pediatric sizes.
- Easy to use, pull zip tabs and in 30 seconds back-board is fully configured and ready for use.
- Specially coated structural cardboard can hold 500+ lbs of body weight.
- Packaged in boxes of 5, takes up little space as they are stored flat.
- Significantly lower in cost than other backboards and more cost effective.

FSI Part # F-EM-10

### Medical Surge Capacity System

FSI offers a Medical Surge Capacity solution to provide immediate shelters, emergency car supplies, tools and other equipment for life safety and rescue operations during mass casualty events.

### Industrial Ergonomic Flooring

Three Grades—All with an 8-Year Warranty!

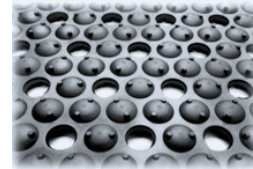

**Standard Grade:** High quality EPDM rubber. Excellent physical properties. Ozone and UV resistant. Great for applications that do not come in contact with petroleum derivatives and harsh chemicals.

**Industrial Grade:** Quality blended oil-resistant Nitrile rubber with a high degree of oil resistance. Excellent for manufacturing plants and machine shops where exposure to shop oils can degrade standard rubber.

**Conductive/ESD:** Specially compounded EPDM rubber for the electronics industry. Each module is certified to be from 1x104 to 1x106 ohms surface to ground resistance.

Barefoot comes in two forms:  
Solid surface - for most applications.  
Drain through - where liquids are used.

### Talon® 100% Tie-Off Self Retracting Lifeline

- Added mobility with two 6 ft. lifelines within one unit.
- 100% tie-off capabilities for safe work at heights.
- Inertia activated for quick response time and reduced arresting forces.
- Compact, light-weight design.
- Durable nylon housing with quick connect handle, rugged and light-weight for attachment to harness.
- No service/re-certification required, reduces cost of ownership.
- Extra-strong and long-lasting materials for extended product life.
- 1 in. diameter nylon web lifelines.

Part #3102000

Introducing RFID-equipped personal protective equipment combined with web-enabled information management to...

- 1) Log OSHA required Inspections
- 2) Track Inventory
- 3) Access Information

### FG 300 Interstate Grade Curb System

Modular Lane Separation and Median Barrier System

Designed for use wherever pavement markings are not sufficient to provide safe channelization.

The Interstate Grade FG 300 Curb System is a median separation system that provides efficient and cost-effective channelization of traffic on freeways, toll-ways, city streets and rail-highway at-grade crossings. This 1-piece curb system is a FHWA-approved passive traffic control device consisting of modular raised curb sections mountable by emergency vehicles, and FG 300 EFX uprights, the toughest channelizer posts on the market. *The curb unit has a 5 year limited warranty!*

### FG300 EFX Ultra High Impact Channelizer Post

The First Channelizer Post with a One Year Warranty!

### Disposable Backboards

- Fluid Resistant.
- Adult and Pediatric sizes.
- Easy to use, pull zip tabs and in 30 seconds back-board is fully configured and ready for use.
- Specially coated structural cardboard can hold 500+ lbs of body weight.
- Packaged in boxes of 5, takes up little space as they are stored flat.
- Significantly lower in cost than other backboards and more cost effective.

FSI Part # F-EM-10

### Medical Surge Capacity System

FSI offers a Medical Surge Capacity solution to provide immediate shelters, emergency car supplies, tools and other equipment for life safety and rescue operations during mass casualty events.

### Portable Eyewash

Model 7501 portable gravity operated eyewash features a 9 gallon capacity, FDA high-density green polyethylene tank that provides full pattern flushing at .4 gpm for a full 15 minutes. The fold-down eyewash arm has a positive upper limit stop that also covers and protects the spray outlets when not in use. Tank has handle on top to allow for easy handling. A wide-fill opening with threaded cap permits easy inspection, cleaning and filling. Model supplied with wall bracket and eyewash preservative to permit storage of water for up to six months. Measurements: 14-1/2" high, 22" wide, 10-1/8" deep. *\*Note: Unit must be wall hung.*

Model 7501 is certified by CSA to meet the ANSI Z358.1 Standard for Emergency Eyewash and Shower Equipment.

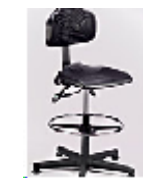

### RhinoTuff® Puncture Resistant Insoles

Contoured molded Orthotic Support System with heel and arch support. Stainless steel plate provides protection against puncture wounds to the feet caused by sharp objects such as nails, scrap metal, iron shards and rocks.

### Ergonomic Seating

**DURA CHAIR**  
Available in low and high profile. Dura-high or Duralow.

**TOOL CADDY**  
Move around with convenient tool access.

**TASQ STANDING**  
Provides ergonomic physical relief while standing.

**KNEEL SIT**  
Ergonomic chair designed for long term sitting.

### Safety Hat

- Meets ANSI Z89.1+2003 standards.
- 8 pt. ratchet suspension for the ultimate degree of comfort and protection
- Full brim with increased thickness on the front and back brim provides protection from UV rays on ears and back of neck.
- Anti-glare Griptec™ coating for easy, non-slip grip.
- Cotton terrycloth sweatband for comfort and easy cleaning.
- Accommodates 4 pt. chin strap.
- Standard Pack of ten.

Available in: White, Yellow, Red, Blue, Orange, HiVis Orange, and Green. Can be pad printed.

### Reader Safety Glasses

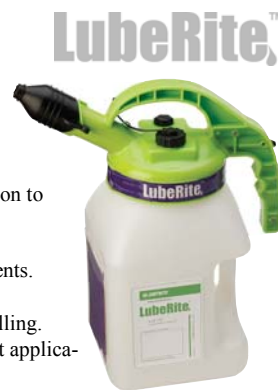

- Economical "cheaters" style safety glasses.
- Total of 5 different strength diopters to assist a variety of levels of vision magnification.
- Lightweight design for comfort and extended wear ensures wearer compliance.
- Universal nosebridge for a comfortable fit.
- 99% UV protection.
- 9.5 Base Curve.
- Meets ANSI Z87.1 impact standards.

### Lubricant Storage Container

Ideal for Anyone Using Lube Oils, Hydraulic Oils, Gear Oils, Motor Oils and Coolants!

- Key system to best practice lubricant storage and dispensing.
- Sealed system protects against lubricant contamination to reduce machinery downtime.
- Saves money by maximizing usable lubricants.
- Minimizes dangerous and costly oil spills and accidents.
- Dispenses easily to awkward points.
- Speeds up lubrication jobs, expedites filling and refilling.
- Includes simple color coding system to target correct application and minimize cross-contamination.

**LubeRite™ Lubrication System:** Simple interchangeable mix & match components covers all applications and minimizes distributor inventory. 3 Drum Sizes, 3 Pour Lids, 1 Pump/Storage Lid, 1 Piston Style Hand Pump, 3 Extension Hoses, 2 sizes of optional Zippered Premium Pouches.

### Hi Vis — Class III Waterproof Protective Apparel

**Typhoon:** Tough, Waterproof, Breathable, all Season Comfort. Available in a 29" Jacket with Tuck-away hood, 48" Coat with attached hood, Fly front bib overall, and plain front Pants

**Mountain Pass:** Extreme waterproof durability, and flexibility in cold conditions. Available in a 29" Jacket with tuck-away hood, and 32" Parka with tuck-away hood.

**Road Crew:** Classic protection and enhanced mobility at a value. Available in a 30" jacket with detachable hood, 48" Coat with detachable hood, Fly Front bib overall, and plain front pants.

### Alpha Aggressive 16" Insulated Boot

Scent-free and Waterproof Rubber-over Neoprene

Steel toe, ozone resistant, nylon woven lining for moisture, adjustable gusset in calf area, EVA footbed, fiberglass shank, long wearing Vibram lug outsole for heavy duty traction in outdoor conditions.

Part #0042 6040

### Excellent Chemical Protection at an Economical Price

#### ChemMAX 1

- Available in yellow.
- Fabric is a high density polyethylene laminated to a spunbond polypropylene.
- ChemMAX 1 is an impervious film and a good economical choice for use in many industrial plants and chemical cleanup operations.
- Seams are serged, bound, or sealed.

ChemMax 1

#### ChemMAX 2

- Available in white.
- Dow Saranex® film laminate.
- Impervious film (not breathable).
- 30% stronger than competitive fabrics & excellent price point.
- Bound and sealed seam configurations.

ChemMax 2

#### ChemMAX 3

- Low visibility gray color.
- Excellent Chemical Barrier & excellent price point.
- Superior strength.
- Available with sealed seams only.

### Unique Water Resistant PVA Gloves

#### TopChem 345

MAPA's new TopChem is the only PVA glove that provides chemical protection against the top 12 hazardous chemicals, 3 gases and can withstand full immersion in pure water for 2 hours without degrading. Combination of a unique water resistant PVA outer layer, inner layer of Neoprene over a comfortable cotton liner provides prolonged chemical protection against aggressive pure chemicals or aqueous solutions.

### Heavy Duty Nitrile Coated General Purpose Gloves

MAPA introduces the new Titan® general purpose nitrile coated work glove line. The Titan® line provides dependable durability and superior abrasion resistance, and outlasts leathers, cottons, and other general purpose work gloves. The Blue Titan® heavy-duty styles are available in fully coated or palm coated with knitwrist or safety cuff. All Titan® styles are launderable, silicone-free and feature a bacteriostatically treated liners.

Titan 385, 388, 391 & 392

### Spill Clean-Up Products

To compliment our flagship products STARDUST and STARPOWER a complete line of Sorbent Pads, Pillows, Socks and Booms have been added to the mix.

The new family of sorbent items includes both Oil only "white" items for use on petroleum based products and for spills on water and Universal "gray" sorbents for other liquid spills. The new STARDUST sorbent offering includes pads, pillows, socks, booms, and other specialty items.

### WELLS LAMONT INDUSTRY GROUP

### Cut-Resistant Gloves

#### Outstanding Protection

An innovative patented yarn combination of high performance fibers and stainless steel provides unparalleled resistance to cuts and abrasions without sacrificing comfort and flexibility.

#### Comfortable & Soft

Metalguard gloves offer increased comfort, softness and flexibility over most standard knit cut resistant gloves. This leads to less hand fatigue, an issue often associated with double gloving.

#### Long Service Life

Metalguard's unique composition significantly extends the service life compared to traditional cut resistant gloves. The reduced replacement and disposal costs considerably lower overall ownership costs. In addition, fewer disposed gloves lead to a cleaner environment.

#### Easy Care

Metalguard gloves are pre-washed and can easily be laundered or dry-cleaned.

UNITED SALES ASSOCIATES

# What's NEW in 2007!

## Introducing the Line-Up of NEW PRODUCTS from our Manufacturers

### Do you need Fall Protection or Confined Space Training?

With many years of fall protection and confined space training and safety equipment experience, Jason Sullivan and Richard Vaccaro are certified to instruct your employees.

Training services are in a variety of safety areas to include:  
2 and 4 hour Fall Protection Basic Awareness, Basic, Refresher or Site Specific Confined Space needs.

Please call Jason or Richard for details and availability.
